LED Table Lamp

Pristine Harvest's indigenously designed and produced LED table lamp works on any DC source of 3.5 to 15 Volts, enabling it to be powered by many types of batteries or a USB port. The output is from 16 high quality LEDs and two levels of brightness can be selected. The light is supported by a high quality gooseneck tube that can be twisted to point the light in any required direction. The base is an elegant plastic pedestal with keyholes for wall-hanging. The physical features permit the product to be used as a desktop lamp, wall mounted lamp, spot lamp etc. A rugged build ensures durability.
